TRENDY PEN COLLECTIONS

decisive colors and contrasts of complementary colors enrich the palette of the collection. This daily carry-along gets noticed as a statement of taste and elegance.

The 30s and 40s are back in fashion with these two fascinating collections of small pens. The tradition of working celluloid was applied, along with the craftsman's skill, to give colorful creation with the most beautiful fountain pen.

Two top Campo Marzio collections; a jewel pen with a pouch to wear around your neck along with slim pen, agile and decorated in genuine leather, hand-made with colored quality leather for which Italian craftsmen are famous for all over the world.

The elegance of the line, along with the new fashionable colors makes it perfect to write down your everyday thoughts

Playing with the idea of classic and contemporary, which has made the concept of Campo Marzio truly unique, we find this new collection. The finest Greek engraved in silver makes this pen a masterpiece of balance and elegance, paying homage to the supreme Athenian Sculptor whose name it bears.

For this line, the designers of Campo Marzio have chosen classic shapes and materials from the 50s and 60s, a period of renewed interest in the field of fashion design and industry. Futuristic lines and accents are contained by the classic elegance of that period, but also explode into bright colors and have a great impact.

Once it was a pencil used only by artists but today it has become one of our favourites when taking notes. This charming mechanical pencil is produced in aluminium in ten different colours and comes together with a small holder containing replacement leads

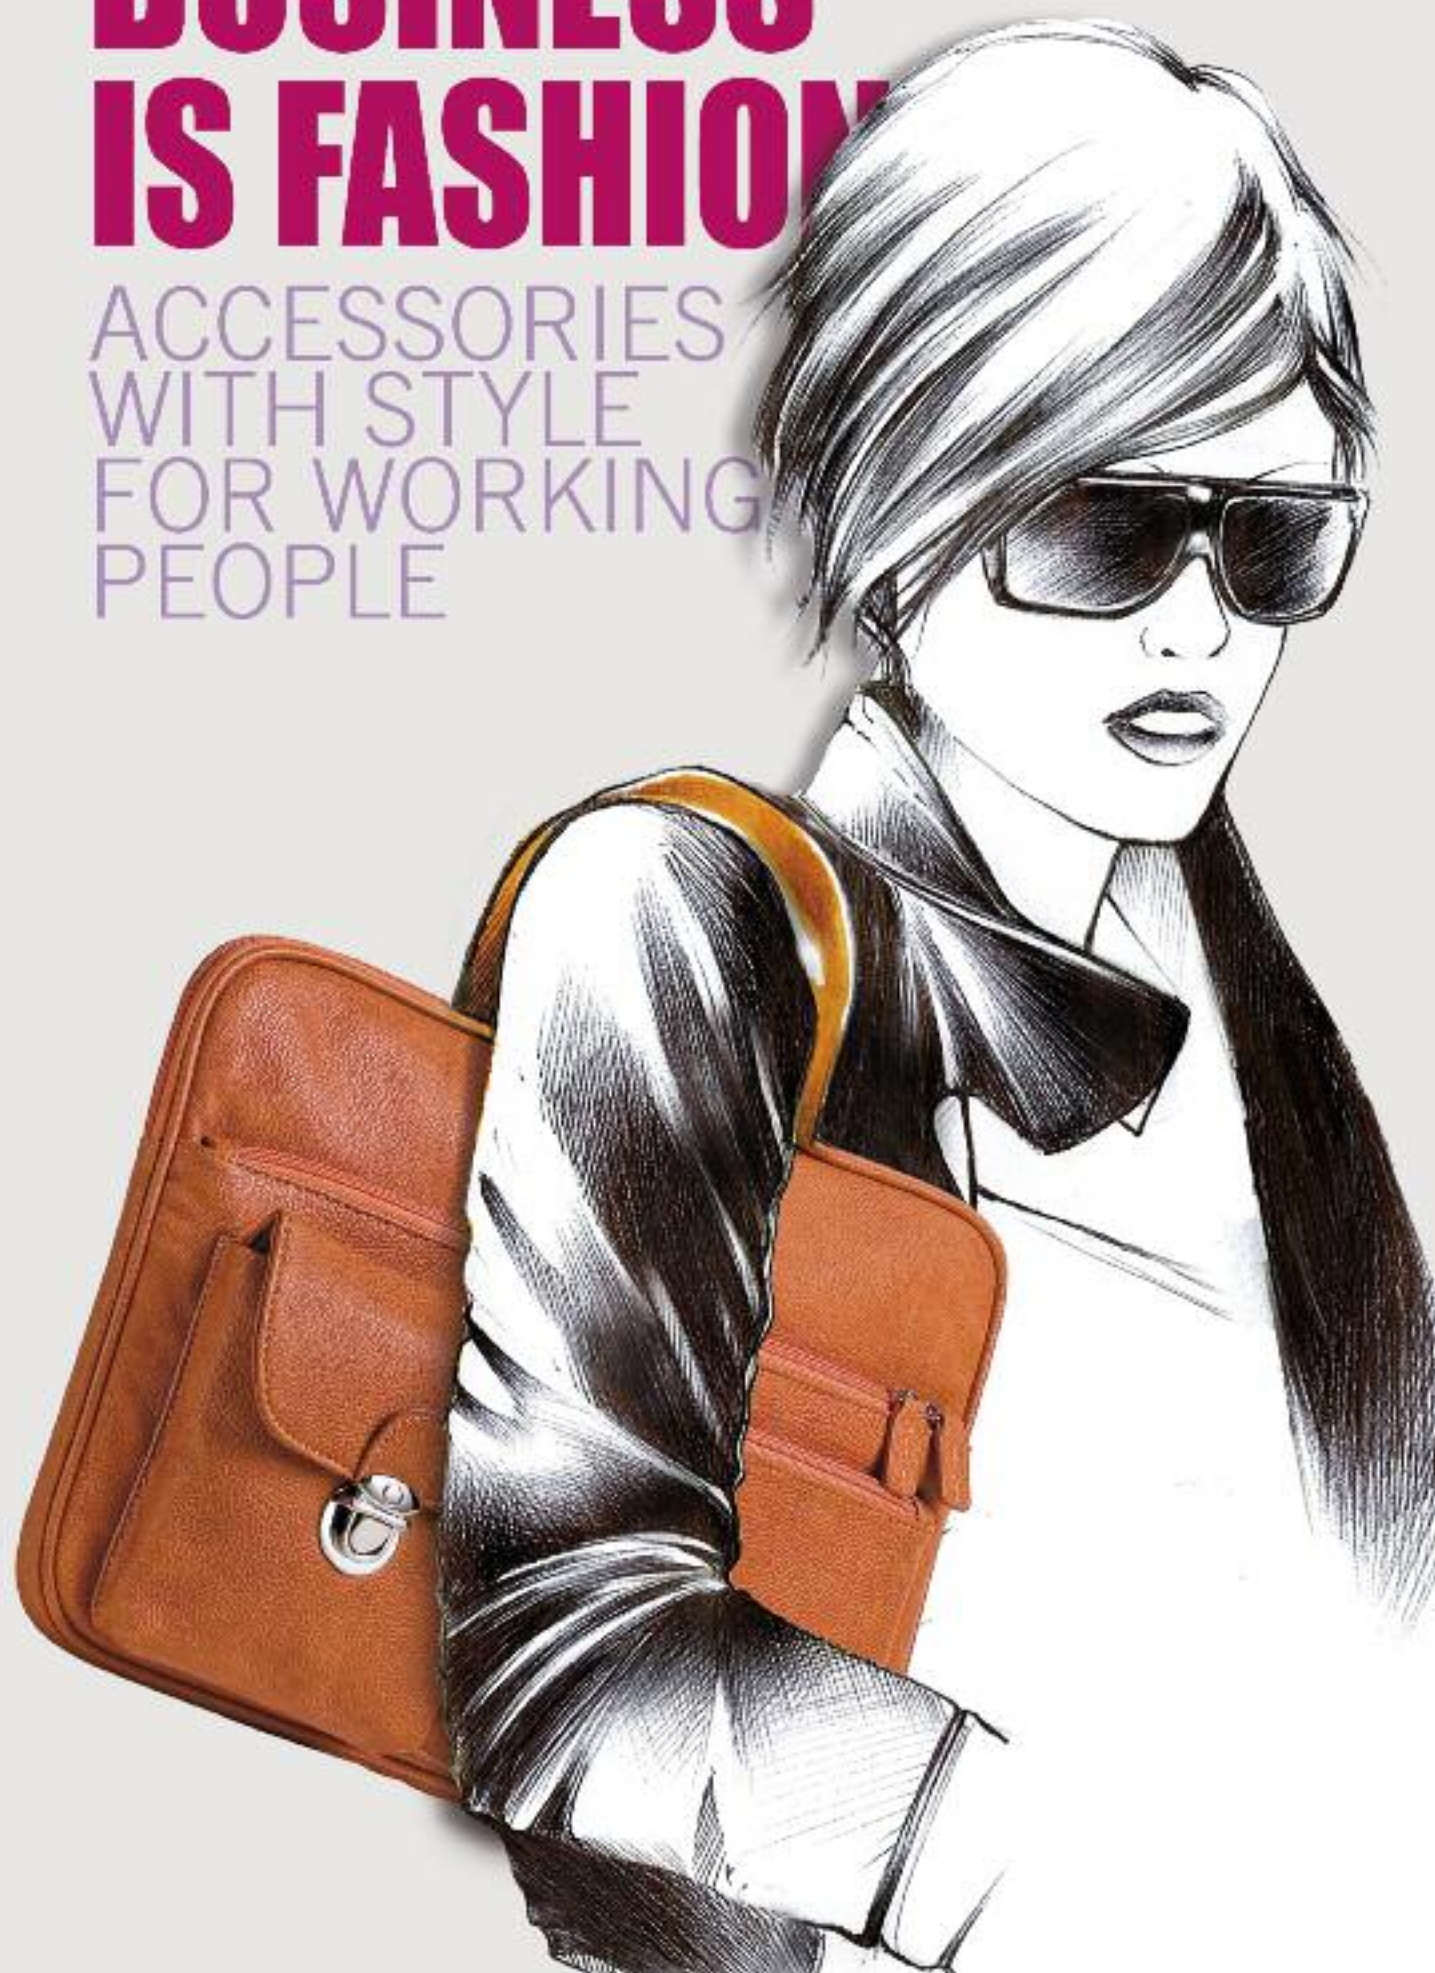

Elegant and still simple at the same time. This pen will surely catch your attention thanks to its beautiful colours and size. Available as fountain and roller in four different colours.

WWW.CAMPOMARZIODESIGN.IT

Just like our collections the Campo Marzio Design website is evolving more and more, with news, events, images of our boutiques and multicolors.

According to our philosophy that "business is fashion", the site becomes an instrument which follows the trends of the moment, even the most important fashion magazines feature our products in their forecasting pages.

The great results in recent years have brought Campo Marzio Design to the attention of the most authoritative international fashion journalist, gracing the pages of the most prestigious magazines, as a phenomenon of the moment.

From 10.000 to 15.000 visits each month worldwide, with even higher peaks in periods such as holidays and celebrations throughout the year.

We are very honored in the interest that our brand has received. This provides a strong incentive of continuous improvement, striving only for customer satisfaction.

Grateful for the many viewers, our site is the most important way for us to communicate with and involve our customers.

The site is translated and available in 8 languages (English, Italian, Spanish, Arabic, Chinese, Korean, Japanese, Russian).

The latest news is the introduction of the online shopping. Because Campo Marzio Design has outlets in many countries, through the shops tab you can locate the store closest to you which generally provides an online sales service. Keeping you in style and dressed to impress with your fashion accessories!

Moreover we also offer the opportunity to personalize the items, thus creating unique items for yourselves, as gifts, or to commemorate an important event.

On the site there is an international customer service, available to help you obtain information and assistance on items purchased, including any changes to be made, explanation of the warranty and to receive information on local distributors.

Access to this service will now be even easier, thanks to the creation of a page under the "contact" section, where you can submit your requests.

Another important innovation is the creation of the "Campo Marzio Design Fashion Community", a social network for people who love fashion and want to be updated on the latest trends and events... do not wait, sign up now!!!

BUSINESS IS FASHION

From the iconic Moda Laptop Bag to the modern Minny Les Pois pen, Campo Marzio Design symbolizes timeless luxury and innovative Italian design. For more than seventy years Campo Marzio has remained a point of reference for people who love style, beauty and the refined culture of writing.

Campo Marzio "Business is Fashion" defines a full concept of stylish accessories for business people. The brand has become well known through its numerous collections of products inspired by international spirit and casual style. Infused with the fundamentals of fashion, the products give their consumers a sensation of the world of business and travel. In all markets where the brand position is consolidating there is a lack of a well-defined concept that offers stylish colourful accessories for business people. This is one of Campo Marzio's keys to success: providing the market with a concept applied to writing instruments and turning common stationery products into fashionable accessories. The Campo Marzio Brand is more than just a colourful range of fashionable stationery; it represents a unique concept, from the product itself to its colourful boxes and matching ribbons given in our signature orange gift bags.

Campo Marzio Customers have had enough of classic colours in their everyday life. The brand becomes an expression of their personality in the world of business and at an affordable price.
